MUHAMMAD NOUMAN

Software Engineering Student | C#/.NET | Web Development | ML/DL Enthusiast
+92 300 6798914 | noumanmuhammad479@gmail.com | Bhalwal, Sargodha, Pakistan
LinkedIn | GitHub | Kaggle | Portfolio

Objective

A results-driven Software Engineering student seeking to leverage expertise in C#/.NET, web development, Python/OpenCV, and AI/Machine Learning within a progressive organization. Committed to delivering high-quality software solutions through strong academic knowledge, hands-on project experience, and proven analytical and leadership skills.

EDUCATION

BS Software Engineering (6th Semester completed) *2023 - Present*
University of Lahore - Sargodha Campus | CGPA: 3.99

FSc Pre-Medical *2021 - 2023*
Punjab Group of Colleges, Bhalwal | 78%

Matriculation (Science) *2020*
Taleem-ul-Islam School, Bhalwal | 93%

PROJECTS

- **Machine Learning Projects:** Built a structured ML portfolio covering regression, classification, clustering/unsupervised learning and model evaluation using CPU-friendly Kaggle workflows.
- **Smart Face Attendance System:** Developed a C# Windows Forms attendance system with face recognition, webcam-based student registration and automated attendance marking.
- **EVConsults Platform & Secure Admin Portal:** Built a responsive Next.js 14 consultancy platform for EV charging infrastructure with PostgreSQL, admin access, dynamic content modules, and media uploads.
- **C# Desktop Systems:** Developed Library Management and Employee Payroll systems covering book/member records, issuing/returns, salary calculation, tax deduction, pay slip generation and reports.
- **Python/OpenCV Image Processing:** Implemented core computer vision workflows including filtering, edge detection, histogram enhancement, color manipulation, background removal and batch image processing.

PROFESSIONAL EXPERIENCE

Networking Intern - Interstate Gas Systems, Islamabad *Aug 2025 - Sep 2025*
- Supported technical teams in system operations, networking exposure and internal documentation.
- Observed enterprise IT workflows and strengthened troubleshooting, coordination and documentation skills.

Educator - School & Academy *2022 - 2023*
- Delivered lessons at school and academy level while adapting explanations to student learning needs.
- Developed communication, public speaking, leadership and classroom management skills.

TECHNICAL SKILLS

- **Programming:** C++, C#, Java, Python
- **Frontend:** HTML, CSS, JavaScript
  Frameworks: .NET Framework, Windows Forms
- **Tools:** Git, GitHub, Visual Studio, Kaggle
- **AI/Data:** OpenCV, Machine learning Image Processing,
- **Systems:** Linux (Ubuntu) Basics, Networking Basics, Documentation

- **Prompt Engineering Workshop Certificate** - University of Lahore, Sargodha Campus
- **Internship Certificate** - Interstate Gas Systems, Islamabad (2025)
- **Debate Competitions** - Multiple certificates from school to university level

ADDITIONAL INFORMATION

Languages: English, Urdu
Soft Skills: Critical Thinking, Team Collaboration, Teaching, Public Speaking, Event Organization
